

COMPANY PROFILE

BUILDING

SOUTH AFRICA

FOR 17 YEARS

Far and away the best prize that life offers is the chance to work hard at work worth doing.

Theodore Roosevelt

Peter Erasmus

Peter is the founder & sole proprietor of Arrow Design & Construct.

He has over 17 years of hands-on experience in the construction and building.

We take pride to retain embankments with a retaining block or a gabion basket. All work is designed with our professional team at hand, for the best option required for your needs. We also assist in erosion control, subsoil drainage systems, concrete v-drains, kerbs and paving.

Peter was involved with prestigious projects as a construction foreman for over 10 years at Improvon developments and BOC Networking & Electrical.

ABOUT US

Every project needs to start with a strong foundation.

We are a group of people that believe in 4 core values. Integrity, Continuous Improvement, Communication and Result

Integrity

Working with each other and with our clients we always put our moral values in every action and decision.

We are driven by acting in our client's best interest close to our heart.

Continuous Improvement

We strive to better ourselves, our skills and also our tools of the trade. We constantly find new ways and means of making our clients satisfied.

We dawn back after each project and ask ourselves:

- What did we miss?
- What could we have done better?
- Is our client satisfied?
- What are our next steps & possible Improvements?

Communication

We put our client's right next to the driver in the passenger seat, constantly informed to make good business decisions.

Result

As with everything in life that we strive to achieve, the outcome is always the proof of success.

It's important for us to drive the result home every time and keep our clients happy.

Your project is important to us

We will make it happen
